Agree

Review:

- ✓ That you retained the right to make this version publicly available in PubMed Central.
- ✓ That the paper has been peer reviewed.
- ✓ That the paper is the result of research supported by NIH or one of the other funding organizations that has partnered with NIH to use the NIHMS system.

If all this is correct, select the Agree button to complete your submission.

I confirm that:

- Right to Deposit I have retained the right to deposit this version of the manuscript with PMC, so that it may be appropriately tagged and
 made available to the public on the PMC web site; or, I otherwise am legally authorized to deposit this manuscript for the purposes
 described.
- Confidentiality The manuscript may contain confidential information that must not be publicly disclosed prior to publication of the paper in the named journal.
- Peer Review The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting
 from the peer review process.
- Funding The manuscript is the result of research supported, in whole or in part, by direct costs funded by the National Institutes of Health.

Manuscript Information

Manuscript Title: Phosphatidylserine targeting peptide-functionalized pH sensitive mixed micelles for enhanced anti-tumor drug delivery.

Journal Title: European journal of pharmaceutics and biopharmaceutics : official journal of Arbeitsgemeinschaft fur Pharmaceutische Verfahrenstechnik e.V

Release Delay (Embargo): Immediately

NIHMSID: 1501589

PMID: 31899369

Submission Progress

Once the submission is complete, you will be taken to a confirmation page.

If you are the Reviewer, the next step is NIHMS
Conversion, where the deposited manuscript is formatted for PMC. This step generally takes 2-3 weeks. You will receive an email notification when the conversion is complete.

Your manuscript's progress will be updated in the Submission Progress graphic as it passes through each step.
